

PENN MANOR SCHOOL DISTRICT

ADMINISTRATIVE REGULATION

APPROVED: March 18, 2011

REVISED:

130-AR-1. HOMEWORK EVALUATION

Effective homework assignments make a significant contribution to a student's total educational experience. This increased learning time and practice reinforces students' classroom learning, independence, self-discipline and good work habits. Therefore, homework is an essential component of the learning and evaluation process.

The teacher is responsible for acknowledging each student's completed homework assignment; otherwise, the assignment has no meaning and should not be assigned.

The following administrative regulations are intended to assist in the evaluation of student homework assignments:

1. A student in Grades 1 through 8 should complete no less than eighty percent (80%) of the homework assignments for a given subject during a report period.
2. Completed homework assignments should be checked and recorded in the teacher's grade book.
3. Make-up assignments should be easily accessible to students.
4. Teachers will develop a swift, accurate, fair and comprehensive way of evaluating and returning homework to students.
