

PENN MANOR SCHOOL DISTRICT

ADMINISTRATIVE REGULATION

APPROVED: July 2, 2012

REVISED:

211-AR-0. STUDENT ACCIDENT INSURANCE

Arrangements to make student accident coverage available to parents/guardians are completed by the administration and approved annually by the Board. The district provides this as a service only, and the contract is between the parents/guardians and the insurance company.

Annually, during the first week of school, building principals will distribute information regarding the option to purchase student accident insurance through the school district. In addition, the information will clarify:

1. Coverage provided by district insurance for participants in designated sports and cocurricular programs.
2. Parents/guardians of students participating in an interscholastic sport, cheerleader program, band program and/or designated cocurricular program may purchase the student accident insurance available through the district or provide proof of comparable insurance.

Students must report all accidents to the school nurse or principal, no matter when they happen: to and from school, in school, on school grounds, at a school activity.
